FINANCIAL MANAGEMENT

MONITORING, EVALUATION AND LEARNING

Enabling evidence-based decision-making through robust monitoring, evaluation and learning systems that measure impact, generate insights, and support adaptive programme management.

EACDS - End of Programme Reviews of FCDO flagships programmes in Ghana, Leave No One Behind and Partnerships Beyond Aid

2024-2025

Ghana

FCDO

The project evaluated the Leave No-one Behind (LNOB) and Partnerships Beyond Aid (PBA) programmes to assess their contribution to strengthening inclusive social development in Ghana. The assignment supported evidence-based decision-making by reviewing programme performance and generating strategic recommendations to improve the delivery and financing of social services for vulnerable populations.

PROGRAMME PERFORMANCE REVIEW

Assessed the implementation and results of the LNOB and PBA programmes, with a focus on poverty reduction, disability inclusion, mental health, and sustainable social sector financing.

EVALUATION & REPORTING

Produced the LNOB and PBA Review Report, the LNOB Programme Completion Report, and the PBA Annual Review.

STRATEGIC ADVISORY

Presented findings and recommendations to FCDO Ghana to support programme learning and inform future implementation and policy decisions.

Evidence and Learning Partner, Fund for Resilience and Prosperity (FRP)

2023-2030

Sub-Saharan Africa

Mastercard Foundation

The project supports the Fund for Rural Prosperity (FRP), which operates across 20 sub-Saharan African countries, to strengthen results management, learning, and adaptive programme delivery. The assignment enables evidence-based decision-making to support innovative small and medium enterprises (SMEs) in creating dignified and sustainable employment opportunities for young women and men.

DESIGNING RESULTS MANAGEMENT SYSTEMS

Developed and implemented the programme-wide results management framework at both programme and partner levels.

DRIVING LEARNING & ADAPTIVE MANAGEMENT

Established the programme's learning agenda, generating evidence and learning products to support adaptive management and continuous improvement.

STRENGTHENING PARTNER READINESS

Conducted pre-grant assessments to evaluate and strengthen the potential impact of partner organisations.

End-of-Project Evaluation of the DeSIRA Land Soil Crop-Information Services (LSC-IS) Hubs Project

2025-2026

Kenya, Ethiopia and Rwanda

Stichting Wageningen Research, Wageningen Social & Economic Research

The project delivers the end-of-project evaluation of the DeSIRA LSC-IS initiative to assess implementation progress, institutionalisation, sustainability, and the scaling potential of Agricultural Knowledge and Information Systems (AKIS) hubs across Ethiopia, Kenya, and Rwanda. The evaluation examines the initiative's contribution to strengthening agricultural knowledge systems, institutional coordination, data governance, and evidence-based decision-making to inform future investments in resilient and inclusive agricultural systems.

EVALUATING PROGRAMME PERFORMANCE

Conducted a theory-based, systems-oriented evaluation across all five work packages using Contribution Analysis and Realist Context-Mechanism-Outcome (CMO) methodologies.

ASSESSING INSTITUTIONAL SYSTEMS

Reviewed institutional practices, governance arrangements, coordination mechanisms, and data-sharing processes through mixed-methods research, including desk reviews, stakeholder interviews, and comparative country case studies.

STRENGTHENING LEARNING & FUTURE PLANNING

Facilitated multi-stakeholder validation and learning workshops to develop actionable recommendations for the sustainability, scaling, and long-term effectiveness of AKIS hubs while informing future strategic decision-making.

Measurement, learning and evaluation Anchor Partner for AgDev Strategy (FRP)

2025-2028

Ethiopia and Kenya

Gates Foundation

The project aims to strengthen the evidence ecosystem underpinning the strategy to improve strategic learning, coordination, and impact at scale across agricultural and livestock systems in Ethiopia and Kenya. By centring the experiences and needs of small-scale producers, particularly women, the assignment supports evidence-based decision-making and adaptive programme management.

MONITORING PROGRESS & GENERATING EVIDENCE

Measured progress towards country goals while analysing key drivers of change and emerging trends.

STRATEGIC LEARNING & ADAPTIVE MANAGEMENT

Tested the country strategy through structured learning, evidence generation, and continuous feedback to inform decision-making.

TECHNICAL SUPPORT & PARTNER COORDINATION

Coordinated implementing partners and provided demand-driven technical support to strengthen programme delivery and impact.

Impact Partner Organisation in Ethiopia and Kenya

 2021-2026

 Ethiopia and Kenya

 Mastercard Foundation

The project supported the Mastercard Foundation in strengthening monitoring, evaluation, and learning (MEL) across its portfolio in Ethiopia and Kenya. The assignment generated evidence on system change, job creation, enterprise growth, resilience, voice and agency, and quality of life to inform adaptive programme management and strengthen the Foundation's long-term impact.

STRENGTHENING MONITORING, EVALUATION & LEARNING

Developed innovative MEL approaches to measure indirect job creation, system change, and youth-led monitoring outcomes.

ESTABLISHING AN EVIDENCE BASE

Conducted a comprehensive baseline study in Ethiopia, including a survey of 3,000+ participants and qualitative data collection to track programme outcomes.

STRATEGIC PORTFOLIO REVIEWS

Undertook ten strategic reviews of partnerships across Ethiopia, Kenya, Uganda, and pan-Africa, assessing theories of change and action, relevance, sustainability, and contribution to system-level change using Triple Line's Pivot Metric methodology to generate forward-looking learning.

3,000+

participants surveyed to establish a comprehensive outcomes baseline in Ethiopia.

10

strategic partnership reviews completed across Africa to inform programme learning and adaptive management.

MONITORING, EVALUATION AND LEARNING

Learning from the Foundation's Support to Youth-led Organisations in Kenya

 2024-2025

 Kenya

 Mastercard Foundation

The project supported the Mastercard Foundation in strengthening its youth-led organisation (YLO) engagement model by generating evidence and strategic insights from a pilot implemented in Kenya. The assignment informed the Foundation's strategy for scaling partnerships with YLOs to expand youth-led development across Africa.

EVALUATING THE YLO PILOT

Assessed the performance and lessons from eight youth-led organisations in Kenya working across enterprise development, education, and support for survivors of gender-based violence.

CAPTURING CROSS-COUNTRY LEARNING

Conducted consultations with youth-led organisations in Canada, Ghana, Senegal, Rwanda, Kenya, and Ethiopia to identify good practices and partnership models.

INFORMING SCALE- UP STRATEGY

Generated evidence and recommendations to support the Foundation's strategy for expanding partnerships with youth-led organisations at scale.

M&E Systems Review and Impact Measurement Technical Support

2025

Sub-Saharan Africa

Corps Africa

The project supported CorpsAfrica in strengthening its organisational monitoring and evaluation (M&E) systems to better measure the impact of its community-led development programmes. Building on a strategic review conducted by Triple Line, the assignment focused on enhancing impact measurement as CorpsAfrica expanded its operations across Africa.

REVIEWING ORGANISATIONAL M&E SYSTEMS

Assessed existing monitoring and evaluation systems to identify gaps in measuring programme and community-level impact.

STRENGTHENING IMPACT MEASUREMENT

Developed recommendations to improve the organisation's approach to tracking outcomes beyond routine project reporting.

ENHANCING ORGANISATIONAL LEARNING

Provided technical M&E support to strengthen evidence generation and inform programme scale-up across new country contexts.

M&E for Civil Society Innovation Fund in Ethiopia

2022-2025

Ethiopia

CSIF (French Development
Agency funded)

The project supported the evaluation of the Civil Society Innovation Fund (CSIF), financed by the French Development Agency (AFD), to assess its contribution to strengthening a more democratic, pluralistic, and innovative civil society in Ethiopia. The assignment generated evidence and learning to inform programme performance and measure the Fund's contribution across the thematic areas of human rights, gender, and media.

EVALUATING FUND PERFORMANCE

Conducted baseline, mid-line, and end-line evaluations to assess the effectiveness and performance of the Civil Society Innovation Fund.

ASSESSING PROGRAMME & GRANT OUTCOMES

Evaluated the Fund at both the programme and grant levels, examining progress towards overall objectives as well as the outcomes and impact of individual projects.

SUPPORTING LEARNING & KNOWLEDGE MANAGEMENT

Generated evidence and learning to strengthen programme implementation and support knowledge capitalisation throughout the Fund.

Impact Analysis and Final Evaluation of Sustainable Energy for Smallholder Farmers

 2024-2025  Kenya  GIZ

The project evaluated the Sustainable Energy for Smallholder Farmers in Africa (SEFFA) initiative, implemented across Ethiopia, Kenya, and Uganda under the Energising Development (EnDev) programme. The assignment assessed the impact of renewable energy solutions on smallholder livelihoods and generated evidence to inform future productive-use-of-energy interventions across the dairy and horticultural value chains.

	IMPACT ANALYSIS & FINAL EVALUATION	Assessed project performance against the 2021 baseline to evaluate outcomes and impacts on smallholder livelihoods.
	MEASURING PRODUCTIVE USE OF ENERGY	Evaluated the effectiveness of renewable energy technologies and business models, including irrigation, cooling, drying, and renewable energy hubs.
	KNOWLEDGE SHARING & LEARNING	Disseminated evaluation findings to the SEFFA project team, the IKEA Foundation, the wider EnDev partnership, and other development stakeholders to inform future programming.

MONITORING, EVALUATION AND LEARNING

Impact Evaluation: Sustainable Inclusive Livelihoods through Tea Production in Rwanda

 2020-2030  Rwanda
 Rwanda Tea/ Wood Foundation

The project evaluated the Sustainable Inclusive Livelihoods through Tea Production in Rwanda (SILTPR) programme, a multi-donor initiative managed by the Wood Foundation to improve livelihoods in Rwanda's tea sector. Supporting up to 6,000 smallholder farmers, the assignment assessed programme performance and generated evidence to strengthen delivery, inform future programme design, and evaluate the potential to replicate the SILTPR model in other contexts.

	EVALUATING PROGRAMME OUTCOMES	Assessed impacts on income, livelihoods, and job creation, examining what works, for whom, and under what conditions.
	ASSESSING VALUE FOR MONEY & REPLICABILITY	Evaluated programme value for money and the potential to transfer and scale the SILTPR model to other contexts.
	STRENGTHENING EVIDENCE & LEARNING	Generated recommendations to improve programme delivery, enhance data collection systems, and inform the design of related programmes, with a follow-up evaluation planned for the extended programme.

Thematic Evaluation of Kenya's Job Creation Programmes

2024

Kenya

FCDO- PwC

The project evaluated four FCDO-funded job creation programmes in Kenya for the British High Commission (BHC) to assess the effectiveness of different approaches to job creation. The assignment generated evidence on programme performance, costs, and benefits to inform future employment programming by BHC Nairobi and the wider FCDO.

DEVELOPING AN EVALUATION FRAMEWORK

Established an overarching theory of change for job creation by building on the existing theories of change across the four programmes.

ASSESSING PROGRAMME PERFORMANCE

Collected and analysed evidence through document reviews, programme monitoring data, interviews, focus groups, and application of the FCDO Jobs Measurement Framework.

GENERATING STRATEGIC RECOMMENDATIONS

Synthesised findings across programme case studies, refined the job creation theory of change, and identified opportunities to strengthen synergies between programmes and inform future interventions.

Evaluation Manager - Strategic Partnerships in Higher Education Innovation and Reform (SPHEIR)

2017-2023

Africa, Middle East and Asia

FCDO

The project evaluated the Strategic Partnerships for Higher Education Innovation and Reform (SPHEIR) programme, the UK's flagship higher education initiative supporting partnerships between higher education institutions, NGOs, and the private sector across Africa, the Middle East, and Asia. The assignment generated evidence on what works in higher education strengthening to inform programme delivery and future investment in the sector.

EVALUATING PROGRAMME PERFORMANCE

Led the evaluation of SPHEIR across its lifetime, including baseline, process, mid-term, and final evaluations.

GENERATING EVIDENCE FOR LEARNING

Commissioned and managed primary and secondary research to assess the effectiveness of different higher education partnership models.

INFORMING FUTURE PROGRAMMING

Produced evidence and recommendations to strengthen higher education programmes and guide future policy and investment decisions.

Evaluation of Local Climate Adaptive Living Facility (LoCAL) in 31 countries across Africa, Asia and Pacific

 Africa (including Ghana, Uganda, Lesotho and Niger), Asia and Asia-Pacific

 UNCDF

The project delivered the final evaluation of UNCDF’s Local Climate Adaptive Living Facility (LoCAL) global portfolio, a programme that strengthens climate-resilient communities by enabling climate finance flows to local governments in developing and least developed countries. The evaluation assessed the effectiveness, sustainability, and scalability of the LoCAL mechanism while generating evidence to support accountability, learning, and strategic decision-making for climate adaptation financing.

EVALUATING PROGRAMME PERFORMANCE

Assessed the LoCAL portfolio at global, national, and local levels against the OECD-DAC evaluation criteria using a theory-based approach, contribution analysis, and mixed-methods research.

ASSESSING CLIMATE FINANCE & ADAPTATION OUTCOMES

Evaluated programme performance, climate finance systems, and local adaptation outcomes, while identifying lessons and good practices across participating countries.

SUPPORTING STRATEGIC LEARNING

Conducted in-depth country studies in Lesotho, Niger, Bhutan, and Ghana to generate evidence that informs UNCDF’s climate finance strategies and supports resilient local development planning by partner governments.

Mid-Term Review and End-of-Work Program Evaluation of the NDC Partnership’s Work Program (including deep dives in countries like Benin, Rwanda, Kenya and Ethiopia) | NDC Partnership (WRI, UNOPS and UNFCCC) | Global (100+ countries)

 2021-2025

 Kenya, Ethiopia, Rwanda, Benin across Africa, also Asia and the Asia-Pacific

The project supported the United Nations Capital Development Fund (UNCDF) in implementing evaluations under its global Evaluation Plan across Africa, Asia, and the Asia-Pacific region. The assignment strengthened evaluation practice, evidence generation, and learning to support accountability and evidence-based decision-making for inclusive development programmes in Least Developed Countries (LDCs).

DELIVERING STRATEGIC EVALUATIONS

Conducted evaluations across UNCDF programmes using innovative approaches, methodologies, and techniques aligned with international best practices.

STRENGTHENING EVIDENCE & LEARNING

Generated evidence to support programme accountability, organisational learning, and continuous improvement across UNCDF’s global portfolio.

ENHANCING EVALUATION SYSTEMS

Contributed to strengthening evaluation practice and evidence-based decision-making within UNCDF and the wider UN system.

Evaluation of the Engaging Kenyan Youth in Agriculture and Nutrition programme in Kenya (under Generation Unlimited)

2026

Kenya

UNICEF

The project evaluates the EKYAN programme in Kenya, which equips young people with skills in agribusiness, climate-smart agriculture, and nutrition through digital learning platforms and strategic partnerships. The evaluation assesses the programme's effectiveness and impact in strengthening livelihoods, promoting sustainable agricultural practices, and fostering more resilient and inclusive food systems.

EVALUATING PROGRAMME IMPACT

Assessed the programme's contribution to livelihood, behavioural, environmental, and systemic outcomes across farmers, agripreneurs, students, and other stakeholders.

ANALYSING PATHWAYS FOR CHANGE

Examined the key drivers of change and the contribution of different elements of the Kuza Biashara implementation model to programme outcomes.

GENERATING STRATEGIC LEARNING

Produced evidence and recommendations to inform programme improvement, strengthen implementation, and support future investment in youth-led agricultural development.

69,000+

farmers targeted through the programme.

512

agripreneurs supported.

10,000

students reached through 64 Centres of Excellence.

Evaluability Assessment of Nigeria - UNICEF's Country Program

2023-2027

Nigeria

UNICEF

The project delivered an Evaluability Assessment of the Nigeria Country Programme (2023–2027) to assess the programme's readiness for evaluation and strengthen its strategic design. The assignment reviewed the programme's clarity, coherence, contextual relevance, and evaluability while identifying opportunities to improve equity, results measurement, and evidence-based programming for children in Nigeria.

ASSESSING PROGRAMME EVALUABILITY

Evaluated the programme's objectives, coherence, alignment with the country context, data availability, and integration of gender, disability, and human and child rights considerations.

REVIEWING PROGRAMME STRATEGY NOTES

Assessed the Programme Strategy Notes across the Health, Nutrition, WASH, Education, Child Protection, and Social Policy pillars to strengthen programme logic and results frameworks.

STRENGTHENING STRATEGIC PLANNING

Developed recommendations to enhance programme coherence, measurability, risk-informed programming, and linkages between humanitarian and development interventions.

Research Partner for Workforce Nutrition Program (Healthy Diets Program)

2020-2023

Kenya, Malawi, and India

Global Alliance for Improved Nutrition (GAIN)

The project evaluated the Global Alliance for Improved Nutrition (GAIN) Workforce Nutrition (WFN) Global Programme, which aimed to improve the nutrition and diet diversity of women and children among tea workers and smallholder farming households in India, Kenya, and Malawi. The assignment established the programme's monitoring and evaluation framework and assessed its impact on nutrition outcomes to inform evidence-based programme delivery.

DESIGNING THE RESULTS FRAMEWORK

Developed the programme's Theory of Change (ToC), results framework, and key performance indicators (KPIs) to guide implementation and performance measurement.

CONDUCTING IMPACT EVALUATIONS

Delivered the baseline, mid-line, and endline evaluations to assess programme outcomes and measure changes in nutrition and dietary diversity.

APPLYING ROBUST EVALUATION METHODS

Used a pre-post evaluation design and Propensity Score Matching (PSM) to estimate programme impact and strengthen the credibility of evaluation findings.

175,000

tea workers and smallholder farmers targeted across India, Kenya, and Malawi.

MONITORING, EVALUATION AND LEARNING

End-of-Grant Evaluation of Portfolio Keeping Food Markets Working

2022

Nigeria, Kenya, Mozambique, Tanzania, Rwanda, Ethiopia, Bangladesh, Pakistan, India

GAIN

The project evaluated the Keeping Food Markets Working (KFMW) programme, implemented by the Global Alliance for Improved Nutrition (GAIN) with support from the Ministry of Foreign Affairs of the Netherlands. Designed as an emergency response to the COVID-19 pandemic, the programme aimed to strengthen food systems by supporting food system workers, small and medium enterprises, and fresh food markets. The evaluation assessed programme performance and generated evidence to inform more resilient food systems programming.

EVALUATING PROGRAMME PERFORMANCE

Assessed the design, implementation, and overall performance of the KFMW portfolio against its objectives and targets.

ASSESSING FOOD SYSTEM RESILIENCE

Examined the programme's contribution to mitigating COVID-19 impacts while evaluating how short-term emergency responses supported longer-term food system resilience.

CAPTURING LEARNING FOR FUTURE PROGRAMMING

Identified achievements, challenges, and good practices to inform GAIN's future strategies for building resilient and inclusive food systems.

Mid-Term Evaluation of Portfolio: 'Improving Access to Safe, Healthy and Affordable Nutrition and Promoting Its Consumption Among the Most Vulnerable Populations'

2020

GAIN

Kenya, Tanzania, Mozambique, Ghana, Nigeria, Tanzania, Rwanda, Ethiopia, Bangladesh, Pakistan, India, Indonesia

The project delivered the independent Mid-Term Evaluation (MTE) of GAIN's global food systems nutrition portfolio, spanning 45 projects across 11 low- and middle-income countries (LMICs). The evaluation assessed the portfolio's strategic performance, contribution to food systems governance, and role in advancing nutrition-sensitive food systems, generating evidence to inform future programming and investment.

EVALUATING PORTFOLIO PERFORMANCE

Applied an OECD-DAC aligned, theory-based, and contribution-focused mixed-methods approach to assess policy relevance, effectiveness, sustainability, and systemic coherence.

CONDUCTING MULTI-COUNTRY ASSESSMENTS

Combined portfolio-wide analysis with in-depth case studies and extensive stakeholder engagement across governments, GAIN country offices, and private-sector partners.

INFORMING FUTURE STRATEGY

Generated evidence on GAIN's contribution to strengthening partnerships and institutionalising food systems governance, informing subsequent Dutch MFA programming and GAIN's strategic direction.

45

projects evaluated across 11 low and middle-income countries (LMICs).

Framework Agreement for Technical Services to Support Climate Adaptation in the Food Security Sector

2024-2026

Africa and South Asia

Global Centre on Adaptation

The project supports climate adaptation across agriculture and food security systems in Africa and South Asia by promoting Digital Climate Advisory Services (DCAS) and climate-resilient seeds. The assignment strengthens climate resilience by integrating digital adaptation solutions, climate risk analytics, and resilient agricultural practices into investment projects and private sector initiatives.

ASSESSING CLIMATE RISKS

Conducted climate risk assessments for the agriculture sector to inform climate-resilient investment and programme design.

INTEGRATING CLIMATE ADAPTATION SOLUTIONS

Developed technical guidelines and recommendations for embedding digital adaptation solutions and resilient agricultural practices into project implementation.

STRENGTHENING CAPACITY & TECHNICAL ADVISORY

Delivered stakeholder training, knowledge-sharing activities, and technical advisory support to agribusinesses, development banks, and private sector actors to scale climate-smart agriculture and resilient food systems.

Technical and Managerial Support for Strengthening the Monitoring and Evaluation (M&E) system and for Conducting an Impact Evaluation of the One WASH National Program (OWNP)

2018-2019

Ethiopia

DFID (now FCDO) and Coffey International

The project supported the One WaSH National Programme (OWNP), the world's largest sector-wide approach to Water, Sanitation and Hygiene (WaSH), to strengthen accountability in Ethiopia's WaSH sector. The assignment focused on fully operationalising the WaSH monitoring and evaluation (M&E) system across federal, regional, and woreda levels to enable evidence-based decision-making.

STRENGTHENING THE WASH M&E SYSTEM

Provided technical and managerial support to the National WaSH Coordination Office (NWCO) to fully operationalise the WaSH monitoring and evaluation system.

ENHANCING DATA SYSTEMS

Strengthened systems to generate reliable, timely, and strategic information across all levels of administration.

SUPPORTING EVIDENCE-BASED DECISION- MAKING

Enabled the generation of reliable, timely, and strategic information to facilitate evidence-based decision-making at all levels of administration.

FINANCIAL MANAGEMENT

Improving financial performance through effective governance, expenditure analysis, resource allocation, risk management, and accountability systems that enhance efficiency and development outcomes.

Evaluation and Analysis for Tax Transformation (EATT) in Ethiopia

2019-2026

Ethiopia

FCDO

The project evaluated the Tax Systems Transformation Programme (TSTP) in Ethiopia, established by DFID and the Government of Ethiopia to strengthen tax administration and institutional reform within the Ethiopian Customs and Revenue Authority (ERCA). The assignment assessed the programme's contribution to tax system reforms and generated evidence to support equitable and sustainable domestic revenue mobilisation.

EVALUATING TAX SYSTEM REFORMS

Assessed reforms related to taxpayer database management, tax policy, institutional capacity, and IT infrastructure within ERCA.

ANALYSING ECONOMIC & DISTRIBUTIONAL IMPACTS

Evaluated the effects of tax reforms on GDP growth, employment, welfare outcomes, and broader economic performance.

SUPPORTING EVIDENCE-BASED POLICY

Generated recommendations to strengthen tax administration and inform future strategies for sustainable domestic revenue mobilisation in Ethiopia.

Ethiopia Portfolio Assurance Programme, Phase 2 (EPAP 2)

2018-2021

Ethiopia

DFID

The project strengthened the effectiveness and efficiency of DFID Ethiopia's programme portfolio by enhancing governance, financial management, and risk management systems across implementing partners. The assignment aimed to improve programme delivery, strengthen accountability, and ensure resources were managed effectively to maximise development impact.

STRENGTHENING GOVERNANCE & FINANCIAL SYSTEMS

Reviewed governance, financial management, and internal control systems across government agencies, multilateral organisations, and international NGOs.

ENHANCING PROGRAMME OVERSIGHT

Strengthened monitoring and evaluation systems while providing targeted technical advisory support to improve programme delivery and Value for Money (VfM).

BUILDING RISK MANAGEMENT CAPACITY

Supported DFID Ethiopia and its partners to strengthen risk management, reduce fraud and corruption risks, streamline fund flows, and reinforce accountability mechanisms.

Sub-National Public Expenditure Review (PER) in Health

2019-2020

Ethiopia

The World Bank

The project delivered a sub-national Public Expenditure Review (PER) to assess health financing, expenditure efficiency, and equity across regions, woredas, and health facilities in Ethiopia. The assignment generated evidence to strengthen resource mobilisation, financial management, and equitable allocation of health resources, supporting improved health sector financing and service delivery.

ASSESSING HEALTH EXPENDITURE

Reviewed the composition and allocation of on- and off-budget health resources and analysed trends in public health spending.

EVALUATING EFFICIENCY & EQUITY

Assessed allocative and technical efficiency, budget execution, financial management information systems (FMIS), service productivity, and the equity of public and external funding, including gender considerations.

STRENGTHENING HEALTH FINANCING SYSTEMS

Developed recommendations to improve expenditure management, resource allocation, and health financing systems to support more efficient and accountable service delivery.

INSTITUTIONAL CAPACITY BUILDING

Building stronger institutions through governance reforms, technical advisory, organisational development, and improved systems that enhance accountability, service delivery, and long-term performance.

Mid Term Review (MTR) of the Partnership to Engage, Reform and Learn (PERL) Programme

 2019

 Nigeria

 DFID

The project delivered the mid-term and annual review of the Partnership to Engage, Reform and Learn (PERL) programme, which supported governance reforms and improved public service delivery across federal, state, and local governments in Nigeria. The assignment assessed programme progress, evaluated the implementation of the Problem-Driven Iterative Adaptation (PDIA) approach, and generated evidence to inform future governance programming.

ASSESSING PROGRAMME PERFORMANCE

Reviewed progress and results across multiple states and levels of government against the programme's original objectives.

EVALUATING GOVERNANCE REFORMS

Assessed the effectiveness of the PDIA approach, reform outcomes, and lessons emerging from programme implementation.

INFORMING FUTURE PROGRAMMING

Analysed the transition from pilot interventions to larger-scale reforms and provided recommendations to strengthen programme complementarity and future DFID Nigeria governance strategies.

Budget Analysis of the 2013–14, 2014–15 and 2015–16 Financial Data for Select Counties and National-Level Sector Analysis

 2016-2017

 Kenya

 UNICEF

The project analysed budget allocations and expenditure trends across 11 counties in Kenya to support UNICEF in strengthening decentralised social protection systems. The assignment assessed public financing patterns across key social sectors to generate evidence for improved resource allocation, sector planning, and service delivery.

ANALYSING PUBLIC EXPENDITURE

Assessed sectoral budget allocations and expenditure trends across health, water, education, child protection, social protection, nutrition, and HIV/AIDS following decentralisation.

EVALUATING BUDGET PERFORMANCE

Analysed per capita expenditure, budget absorption, and key service delivery indicators to identify opportunities for improving public spending.

SUPPORTING EVIDENCE-BASED PLANNING

Prepared county-level and national sector budget briefs to inform public financing decisions and strengthen decentralised social protection systems.

11

counties assessed to strengthen evidence-based public financing and social protection planning in Kenya.

Provision of Regional Technical Advisory Services on Local Level Public Financial Management (PFM)

 2013-2016

 Ghana

 The World Bank

The project strengthened Local Level Public Financial Management (PFM) systems to improve fiscal discipline, resource allocation, and service delivery across urban local governments in Ghana. The assignment supported the institutionalisation of good PFM practices and enhanced local government capacity to deliver more effective infrastructure and public services.

STRENGTHENING PUBLIC FINANCIAL MANAGEMENT

Provided strategic and technical support across budgeting, financial reporting and auditing, revenue management, asset management, and transparency and accountability.

BUILDING INSTITUTIONAL CAPACITY

Delivered capacity-building support through generic training programmes, Regional Technical Advisory Teams (RTATs), and a Capacity Support Fund.

ENHANCING LOCAL GOVERNANCE

Supported local governments to improve financial management practices, strengthen accountability, and enhance the delivery of municipal infrastructure and services.

10 local governments supported to strengthen public financial management systems in Ghana.

ABOUT US

Committed to advancing Africa's bold vision

We are a wholly owned subsidiary of the IPE Global Group, an international development consulting firm, blending global expertise with on-the-ground experience.

Drawing on 27+ years of expertise, we deliver scalable, evidence-based solutions across Africa, strengthening local capacity and supporting national development priorities.
